The Comptroller states that when an advance is debited to Plague Fund, credit for the recoveries made cannot be given to the General Revenues, as the amount to debited is first credited to Plague and again debited to the General Revenues, that the process is unnecessary and irregular as already pointed that if Plague Fund is to be credited with the amount in order that the General Account may be debited, debit to Plague Fund will disappear as soon as

SIR,

I have the honor to acknowledge the receipt of Government Proceedings No. H. 3169 dated the 20th of May 1904, approving of my suggestion and remarking (1) that all recoverable loans and advances should, in the first instance be charged to Plague fund for the reason that it is on account of Plague that the advances are made, and (2) that all repayments should be credited to the general Provincial Revenue and to state with reference to the second para that when an advance is debited to Plague fund, Credit for the recoveries made cannot be given to the general Revenues, unless the amount so debited is first credited to Plague fund and again debited to the General Revenue This means double debit and credit — once

in the Plague accounts and again in the Genera
accounts - which as already reported in
the Correspondence ending with my Pg. N
446 of the 12th March 1904, is unnecessary. Mo
over, it is irregular to credit the recoveries
the general Revenues when the debit is to Plag
fund. If Plague fund is, as stated above,
to be credited with the amount in orde
that the General account maybe debited,
the debit to Plague fund will disappear
Soon as this fund is credited with the
amount. Thus there is no object gaine
in debiting such advances to Plague fun
in the first instance.

2. I have therefore to request that you
will be so good as to obtain the order
of Government to debit all such recov
able advances to the general Revenues or

I have the honour to be,

Sir,

Your most Obedient Servant

H. Eagles
